## Giving you our best

GM has been extending innovative technology and luxury experiences for more than two decades. Our years of experience and expertise provide invaluable benefits for our production facility in Mumbai as well as in close co-operation with our global suppliers. It is of vital importance to us that we only work with suppliers that share our commitment to high quality. That is why our association has always been with talented, creative designers who have a responsible attitude towards design. And that is why we carefully select our suppliers so that we can work closely with them and supervise the whole production affair.

To achieve a perfect balance between carefully selected raw materials, beautiful design, functionality and good value is our moto. Every little piece, detail, line and material has been meticulously considered to ensure that the end result will work wonders in your home.

The entire GM product range catalogue can be found online on our website [www.gmmodule.com](http://www.gmmodule.com).

You can follow GM on Facebook, Twitter, Instagram, YouTube and LinkedIn.

# BEING THE INSTRUMENT OF LIGHT!

Light in an aesthetical mould changes its behavior. It emits rays in an impressive manner and exudes artistic elegance, as a conclusion to the creative design. With inventive features it adds convenience to the lighting entity and further grants a refined upgrade to lifestyle with modernizing the spaces.

# Twist in twist out

With world's  
first modular  
detachable  
driver.

#### GOCO LED PANEL LIGHT

The new generation GOCO LED is designed for high performance with an innovative detachable driver. The twist-in twist-out driver design makes installation easy with a complimenting look to any home/ office décor. The panel lights have a longer life span delivering high lumens per watt, thus emitting better light.

# BETTER stability & RELIABILITY

## FIESTA COB SPOT LIGHT

The LED innovation gives you the technological novelty of COB LED lights. The Multi-LED chips are clubbed together as one lighting module. This Chip-on-Board type of LED produces a high luminous flux directed towards the surface of the object to be lit. The Fiesta COB Spot Lights have a better life, stability and reliability.

A romantic couple is shown in a close embrace, nearly kissing. The woman is on the left, her face in profile, and the man is on the right, with a beard and his eyes closed. They are illuminated by warm, golden light against a dark background. The text 'GET THE POWER TO CONTROL YOUR LIVING SPACE' is overlaid in the lower center, with a red line graphic underneath.

## MULTI-PURPOSE UVC LED STERILIZATION CABINET

The UVC LED sanitizes household objects by decomposing the odour molecule. This high-quality cabinet is highly recommended for cosmetic products and jewellery used on a daily basis. Taking certain precautions before using make-up cosmetics will help maintain good hygiene. The UVC with reflective glass offers wide wavelength and provides 360° protection.

# LED STRIP LIGHTS

RADION  
ZODION  
PRODION  
ODION  
KODION  
TODION

Strip lights have become a popular idea for festivity and home décor. The LEDs come in durable compact packages that are resistant to shock and can be used in a variety of ways. Available in long strip lengths, they have a protective covering that make them dust and water resistant (IP20/IP44/IP67). LED strips are available in a wide range of single colour as well as multi-colour strips (RGB). Strip LEDs are cost effective and easier to install.

A ballerina with her hair in a bun, wearing a black tutu and ballet slippers, is captured in a graceful pose. She is holding a large, glowing square light frame with both hands, which is positioned around her waist. The background is dark with several other glowing square light frames floating in the air, creating a dreamlike atmosphere.

All dimensions in mm

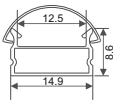

The background image shows a sophisticated interior. A large, tufted grey sofa is the central element, with a wooden coffee table in the foreground. The wall behind the sofa is dark and textured, with bright, white, geometric light patterns (triangles and lines) projected onto it, creating a dramatic, high-tech atmosphere.

## SHINE

A series of indoor wall lights and pendant lights, that outshine interiors with their uniquely designed form, shape and their manner of display. While the dainty wall lights go straight in your beautiful walls, the pendant lights delicately hang by your ceilings, serving creativity and convenience to the best of their capability. With impressive usability features such as the in-built USB with a mobile holder, that solve small but significant issues of everyday living, indirect lights glowing dimly creating an aesthetic and calming atmosphere to enrich your leisure time and the flexibility of movements in the lamps allowing setting of desired angles enabling activities such as reading, relaxing and more, the new Shine series grant you an incredible amount of joy and countless moments of comfort.

# FACADE LIGHTING

A modern, two-story house is shown at night. The building features a mix of materials, including dark vertical slats and light-colored concrete. Warm interior lights are visible through large windows and glass doors. The exterior is illuminated by a combination of recessed lighting and small, ground-level spotlights that highlight the landscaping, which includes various plants and trees. The overall atmosphere is sophisticated and serene.

Makes living even  
more beautiful!

The mesmerizing façade lighting makes the building structure look all the more beautiful and gives you a luxurious feel as you get in the vicinity. It adds serenity to the delightful environment and altogether contributes in making your mind tranquil and your heart upbeat.
